

## **11th Grade Post Secondary Program Exploration**

Students will research a Post-Secondary Program offering a career in their interest area

- College Technical Certificate Programs 1 or 2 years  
ex: Massage Therapy, CNA
- College Technical Degree Programs 2 years  
ex: Associate's Degree, Diesel Mechanic, Radiation Technologist
- College/University Degree Programs 4 years  
ex: Teaching, Engineering, Social Work  
\*A Bachelor's Degree (4 year) can be completed  
with 2 years at a community college  
plus 2 years at a College or University that offers the 4 year degree you choose

### **Research the following and create a final product to present your results**

1. How long is the program? Does the program lead to an additional program or school?
2. Where is the program located? Describe the locations positives and negatives
3. What type of program is it? (certificate, 2 year, 4 year) (Technical, Clinical, Liberal Arts)  

(Is the school religious, private, public?)
4. How much is the program? (tuition, books, room and board)
5. What type of classes will you need to take?
6. What are the prerequisites to entering the program?
7. How do you apply? (List the steps and dates required for admission)
8. How will you pay for college? (scholarships, grants, work study, loans)
9. What is the admission criteria? (tests, essays, medical)
10. What are the top 2 reasons you would attend this school?
11. What are the top 2 reasons you would *not* attend this school?
